

## GRADUATES HEAR FATHER JOHNSON

St. Augustine's Vicar Delivers  
Baccalaureate Sermon  
Last Sunday

The Baccalaureate sermon was preached before the high school graduating class last Sunday evening at the Episcopal church, by Rev. Father Johnson.

"The Power of God" was his principal theme. In developing his topic he brought out the fact that we can not deny the power of god in the world. The wonderful story of the formation of the earth, as revealed by the geologists, is not complete without bringing in the hand of god to explain the power which seems to have guided it.

We cannot explain even a structure as simple as a blade of grass without bringing in god.

The science students wonder at the power of the microscope which reveals things they can not see with the eye and marvel at what they see with it but they do not fully appreciate what they are doing unless they understand the structure and power of the eye which uses the microscope.

In the same way we do not fully understand nature nor history unless we see back of both, the power of god guiding their workings.

In illustrating this he used the example of a model engine which is perfect in construction. It is useless and meaningless as it stands in its glass case until a coin which supplies the power is dropped into the slot. Then the engine begins to move with perfect harmony in all its parts. In much the same way, every thing that is moving and living in the universe is endowed with a power from on high.

In conclusion, he likened society to a great factory in which there are many machines, each doing its separate work. Some are large and conspicuous and the work they do is readily seen. Others are small and seemingly unimportant. Among the small ones, the governor-balls of the engine are apparently the most useless. They simply whirl, yet by their motion control, and regulate the speed of movement of all of the machines. Without them to control the rest, the powerful machine could not do its work and might even be shattered if these balls, even for a little time failed to do their work.

In society some people are like the large machine, doing great things, but many are inconspicuous. The latter may, however be just as important in keeping the greater ones going as the governor balls of the engine. Each must therefore do his part as he finds it in the world, as it may be very important in the organization of society, although apparently almost useless.

## M. W. A. MEMORIAL DAY

Members Remember Their Departed  
Brothers Last Sunday.

Last Sunday was Memorial Day of the Modern Woodman lodge and was observed by the Camps throughout the country.

In Rhinelander about sixty members of Lake Camp 1749 attended services at the Congregational church and listened to a fitting sermon by the pastor, Rev. Grant Clark. Following the services the Woodmen marched in a body to the cemeteries where with fragrant blossoms they decorated the graves of their dead brothers.

### LEASES BUILDING

McLaughlin & Son, the dairy men, who last Thursday afternoon purchased of Chas. Chafee the building on Stevens street occupied by the Rhinelander Creamery & Produce company, have leased the property to the above concern for an extended term. The building will continue to be used by the company as a milk depot and office.

## MODERN HOTEL ON ARLINGTON SITE

O. A. Hilgerman Intimates That  
He May Build An Up-To-  
Date Structure

O. A. Hilgerman, who last week purchased the Arlington Hotel property from Thos. McDermott, hints that he may at some future date tear down the present wooden structure and erect in its place a large and modern hotel building.

While Mr. Hilgerman declines to make any positive statement for the press at this time, he intimates that if he is given the proper encouragement from Rhinelander citizens that the new hotel will be more than a mere probability. The hotel such as he has in mind would cost in the neighborhood of \$50,000 and would be thoroughly up to date in every respect.

When asked what he meant by "proper encouragement" Mr. Hilgerman said that he was unprepared to commit himself just now but would be in a position to talk definitely on the subject later on.

The Arlington location would be an ideal site for a first class hotel and it is hoped that Mr. Hilgerman will see fit to carry out the project.

## DR. CLAXTON HERE FRIDAY EVENING

Well Known Lecturer Will  
Speak Under the Auspices  
Of Senior Class

Much interest is being manifested by the Rhinelander public in the appearance in this city to-morrow evening, Friday, June 9, of Dr. P. P. Claxton of the University of Tennessee, who lectures on Universal Peace. He appears here under the auspices of the High School Senior class.

Dr. Claxton is a speaker of national prominence and has made a careful study of the peace question now before the civilized countries of the world. He believes that much good could be accomplished through saving the vast sums now used for war purposes by the adoption of peace. Admission to the lecture 25 cents. Reserved seats at Sawtell's.

### Taft On War

The following editorial from the Chicago Record-Herald is appropriate for publication in connection with the announcement of Dr. Claxton's coming:

"Like Premier Asquith, President Taft, in discussing 'insults' as a cause of war, reminds us of the days of private feuds and duels, when it required superhuman courage to avoid 'the field of honor.' If, he asks, gentlemen no longer fight over questions of honor and vital interest, why should civilized nations fight over them? Where is the 'humiliation' involved in agreeing to settle any and all international disputes by judicial arbitration?"

What, after all, is war—war without gloss, vain glory and excitement? Mr. Taft gets down to prose and reality when he says that war is wholesale slaughter, anguish, pillage, destruction, staggering burdens.

"True, there is discipline in war and preparations for it, and certain virtues are revealed or fostered by it. But, as the late Professor James showed, there is a moral equivalent to war. There are many callings and tasks in industrial and civil life which call for discipline, self-denial, rough and hard work, endurance, obedience to chiefs, co-operation. To substitute arbitration for war is not to make life a soft snap for all and to imperil the vigor of the race. It is simply to divert our best energies and virtues into construction channels."

## CLASS PLAY IS A BIG SUCCESS

Seniors Present "Secretary  
Pro Tem" To A Large And  
Pleased Audience

The "Secretary Pro Tem," the annual Senior class play, was presented at the Grand Opera House last evening before one of the largest audiences that has ever assembled at that theater. The production was perfectly acted, each member of the cast carrying the parts in a manner that would reflect credit on many professionals. That the patrons appreciated the ability of the young people was evidenced by the loud and frequent applause.

The "Secretary Pro Tem" is an amusing three act comedy through which there runs several charming little love episodes and situations of a delightful nature.

Henry Leslie, a young man of wealth, becomes infatuated with Bessie Martin whom he meets at a summer resort. In order to be near the girl, he pretends to be poor and engages as private secretary to Rachel Shepherd, Bessie's maiden aunt. Raymond Shepherd, a retired merchant and brother of Rachel, objects to the secretary's love for his niece on the ground that he is poor. Chauncey Wolcott, Shepherd's nephew, is the young man whom Shepherd intends shall marry his niece. Chauncey, though, is in love with Helen Bailey, Bessie's friend, but to please his uncle, tries to hide his affection. Dr. Blink, physician to Mrs. Shepherd, an invalid, is also an admirer of Miss Martin but she spurns his love. To continue his stay in the household that he may be near Bessie, Dr. Blink attempts to administer medicine to Mrs. Shepherd which will weaken her condition and prolong his services. This plot is discovered by the secretary who exposes the doctor. The secretary in order to bring out the fact that he is wealthy sends to himself a bogus telegram announcing that his uncle has just died leaving him heir to a fortune. This fact causes Mr. Shepherd to regard the young man in a different light and the story ends happily for all concerned.

The play was directed by Miss Olga Nelson and to her is due credit for the smooth and systematic manner in which the production progressed.

Jefferson Redfield, in the title role, assumed his part without a flaw as did also Clyde Remo as Chauncey Wolcott. Paul Smith, as Doctor Blank was very good, while Vernon Aenis who took the part of Raymond Shepherd, did exceptionally well.

Mary Langdon, as Bessie Martin, and Kate Charrey, as Helen Bailey, Bessie's friend, filled their parts splendidly. Mabel Sanns made a typical spinster and Edna Johnson as Mrs. Shepherd, a chronic invalid, acted her role perfectly. Ralph Rheume proved a most obedient man servant.

All on the stage spoke in a loud clear voice and could be distinctly heard in every part of the theater. There was not a trace of hesitancy or embarrassment, a fact which displayed careful preparation.

## SUNDAY CHILDREN'S DAY

Fine Program Will Be Given At  
Congregational Church.

Next Sunday is Children's Day, a great event in Congregational circles, and will be properly observed at the Congregational church in this city.

In the morning at 11:30 o'clock there will be an entertaining program by the little people. The exercises will consist of musical selections, readings and recitations. The church will be beautifully decorated especially for the occasion.

Rehearsals for the program will be held Friday at 4 p. m. and Saturday at 7 p. m. All members of the Sunday School are requested to be present.

Mrs. E. R. Moore and children left Tuesday for an extended visit at Phillips.

## EVENTS OF WEEK IN OTHER TOWNS

### Items of More or Less Importance Boiled Down From Neighboring Exchanges

#### Grandon

The ladies of this city have extended their aid in a movement to beautify the court house park. They have planted flower seeds and set out plants on the grounds and next year will start the work earlier with the aim to produce larger results. As there is no green house here the ladies are obliged to furnish all the necessary plants. It is their object to make the court house park here the prettiest in northern Wisconsin.

#### Tomahawk

C. J. Douglas and C. B. Dewing, town of Skanawan farmers, accidentally came onto a wolf den one day this week and succeeded in slaying eight cubs. As soon as the men attacked the animals they showed fight but were soon destroyed with rifles. The old mother wolf managed to escape. The killing netted the farmers \$32 bounty from the county and the same amount from the state.

#### Ironwood

Staggering into the bar room of the St. James Hotel, a neatly attired young man gaspingly informed the bar

keeper that he had swallowed poison for the purpose of committing suicide, then sank to the floor. A physician who was immediately summoned, gave the man an emetic which caused him to vomit freely after which he was removed to the hospital. The stranger claims that he is a civil engineer and when asked why he attempted to end his life, said, "Oh, woman trouble." He will recover.

#### Washburn

A tract of 2,700 acres of fine land in the town of Port Wins, at the mouth of the Iron River was purchased this week by the Northwestern Bond Company. The tract includes some excellent fruit lands and it will undoubtedly be placed on the market for settlers.

#### Park Falls

A crew of men is now engaged making alterations and preparations for the installation of the new machinery at the paper mill. All the repair work and remodeling of the plant will be finished before the machinery arrives so that operations will not be suspended any longer than possible. When the improvements are complete the capacity of the mill will be increased and employment given to many extra men.

#### Marshfield

Marshfield may secure a branch agricultural experiment station of the University of Wisconsin. Prof. R. A. Moore of the university faculty has left for Madison after spending several days in Marshfield, talking the proposition over with members of the county board. It is understood that if the county board will donate a site the station will be

established. As the county has a farm of 600 acres here in connection with the county insane asylum, the prospect for securing the branch seems good.

#### Superior

A special train consisting of three pullmans, baggage and dining car, made a run this week between New York City and Superior which has seldom been equaled in the past. The train bore 74 Hollanders who came direct from Holland to New York City and direct from New York City to Superior. The 74 made up a score of families, all of them well-to-do, who will engage in dairy occupations in the lake regions. The above train is one of the series which will meet incoming steamers and will carry emigrants directly after their landing from trans-Atlantic steamers to the lake regions where these settlers will locate.

#### Marinette

Three hundred and fifty families have been brought into this territory this year from the larger cities by the Menominee River Sugar Company which requires these laborers in cultivating sugar beets. The families have been distributed throughout the northeastern portion of the state and will undoubtedly make their permanent homes there when the sugar beet growing season is over. It is said that the immigration has depopulated the Hungarian sections of some of the cities.

#### Washburn

The indications are that there will be a bumper crop of strawberries and blueberries, besides all other fruits in the Washburn fruit district this season. The season so far has been ideal and the fruits have not advanced too rapidly. The rain of the past week has helped things out wonderfully and fruits are looking in the pink of condition. A special refrigerator service will carry out the fruit by the carload.

#### Wausau

A pump exploded on the farm of Martin Skutowski, injuring three children. The little folks went to get a drink of water, John 16 years old, took hold of the handle. While Martha, 15 years old, was holding the cup. As John bore down on the handle an explosion occurred and a portion of the pump was blown away. Fragments struck Martha, hurting her badly. A piece of metal also struck John, wounding three of his fingers. Another child, Helen, 5 years old, was also blown over. An examination of the pump showed that a small screw cap had been removed from the bulb above the piston, and the theory is that whoever removed the cap introduced some explosive which let go when the attempt to work the pump was made. An investigation as to the guilty parties is being made.

#### Ashland

Work on the harbor improvements is progressing rapidly and it is expected that the new pier head will be completed and sunk before the end of June. The 600 feet between the head and breakwater will then be filled in with stone. More than 1200 tons of stone have been placed in the foundation for the pier head in the last month.

#### Grand Rapids

During an unusually severe electric storm Saturday night Mrs. Albert Ferch was instantly killed by lightning while in bed. An infant child lying beside Mr. Ferch was unharmed. Several rooms in the residence were damaged by the bolt, but the fire started by the lightning was put out before it spread. Alexander Mindak's house was also struck and costly damage caused.

## AFFAIRS AT THE NATION'S CAPITOL

### News Of Week And Events Of Importance In Which Wisconsin Figures

On the question of Statehood for New Mexico and Arizona in the House, the thirty-two Republicans who voted with the Democrats for the majority resolution were for the most part insurgents, although some of the regulars opposed the position of Minority Leader Mann on the motion to recommit with instructions to approve the New Mexico constitution without amendment, because of their compliance with every requirement of the enabling act approved by the President June 20th, 1906; and requiring Arizona to eliminate the recall of judges when electing State officers. The Republican voting for the majority joint resolution were: Representatives Anderson, Davis, Miller, Lindberg, and Volstead of Minnesota; Cooper, Esh, Lenroot, and Morse of Wisconsin; Campbell, Jackson, Murdock and Young of Kansas; Bowman and Farr of Pennsylvania; Kendall and Woods of Iowa; Lafferty, Oregon; McLaughlin and Wedemeyer, of Michigan; Kinkaid, Norris and Sloan of Nebraska; Needham and Stephens of California; French of Idaho; Helgesen, of North Dakota; Morgan of Oklahoma; Pray of Montana; and Roberts of Nevada. The lone Socialist member, Mr. Berger, of Wisconsin, also voted with the Democrats.

According to the bulletin issued by the Census Department it is found that practically every portion of the country has shown an increase in population during the past ten years and the exception to this rule is found in different counties which are designated by the statisticians of population. In the East North Central division, made up of Ohio, Indiana, Illinois, Michigan, and Wisconsin there were 190 counties which decreased and 243 which increased; the largest number of the latter, 74, being those which gained from 5 to 15 per cent. There were 66 which increased less than 5 per cent; 45, from 15 to 2 per cent; 46 from 25 to 50 percent and 14, 50 per cent or more.

The reinvestigation of the Lorimer matter assures another great fight. Senator LaFollette contended for a special committee of his own making, but the Senate did not harken kindly to the suggestion that the investigation be conducted by other than the regular committee. It is intimated that Mr. Lorimer will give his personal testimony in the new investigation.

It has been quietly rumored that Congressman James T. Lloyd, chairman of the Democratic Congressional Committee, has been the subject of a good deal of criticism on the part of Democratic Members of the Committee, on Patronage, on account of his inclinations to take care of relatives. He has secured the appointment of his brother as Secretary of the committee on accounts, and during previous congresses had two other members of his family on the government pay roll. Mr. Lloyd, like the balance of the Democratic managers talks a great deal about economy, but in his own personal matters there is no evidence that he has put anything of this kind in practice. His management of the last political campaign was seriously criticized, and it is questionable whether he will be able to secure enough to retain his position as head of the committee in another election.

Postmaster General Hitchcock, who undertook the administration of the postal affairs of the country facing a deficit of \$17,500,000 announced that the present year will show a revenue of \$1,000,000 in excess of the Department expenses.

#### ALBERT SALISBURY

Albert Salisbury, president of White water Normal, died suddenly at the hospital last week. In the death of Mr. Salisbury, the state loses one of its leading educators. He worked for years to get the state school for the feeble minded and it was largely through his untiring efforts that this institution was established. Mr. Salisbury was prominent at all state educational associations; he will be greatly missed at these gatherings.

#### SHOULD BE KILLED

The state legislature is still struggling with a uniform (school) text book law. If they have nothing better to do, we would advise them to adjourn. The bill was put before the printing committee instead of the educational committee, we believe for no other reason than that the educational committee has three ex-school superintendents on it who know the "evil" effect of such a law and the printing committee is made up of men wholly unacquainted with school affairs. The fact is this is a most pernicious bill and should be defeated by the legislature if the committee does report favorably upon it. Every leading educator in California realizes the evil effect of the uniform text book law of that state and does not hesitate to say so.

#### PROBE LUMBERMEN NEXT

At Chicago, Monday the first attempt of the federal government to prosecute criminally members of the big lumber combinations of the middle west, northwest and southwest under the Sherman antitrust act started Monday before Judge Kene-saw M. Landis when a special grand jury was empaneled.

The charges to be investigated are conspiracy in restraint of trade, following the line of prosecution indicated in the complaint filed in New York two weeks ago against 19 trade organizations and 150 individuals, asking for a dissolution of the lumber combine in the east.

The points charged are:  
That organizations of retailers are in league to maintain the high prices of lumber commodities to consumers.

That all consumers are forced to buy from the retailers.  
That wholesale lumber dealers who violate this practice and sell directly to the consumers are blacklisted and the source of their lumber supply is cut off.  
For two and one-half years the government has been investigating the lumber trade. The first move was the filing of the suit for dissolution of the combination in New York. Subsequent to the preparation of the papers agents of the department of justice, while working through the middle west and west, uncovered evidence which astonished Attorney General Wickersham. It was left before the "trust busting" staff, and it was decided that the evidence was of such nature as to justify criminal prosecution.

As a result of the thorough lumber investigations the government contends—as voiced in the New York World suit—that by written and verbal agreements and by meetings and conventions in which constitutions were adopted and purposes declared the defendants "arbitrarily fixed, established and maintained arbitrary divisions and classifications of the lumber trade," which was an unreasonable restraint of interstate commerce and an unreasonable prevention of competition.

### EXPLOSION RUINS APPERSON LAUNCH

Accident Occurs As Craft Is Leaving Boat House—Ralph Polley Hurt

As the result of a gasoline explosion on E. Apperson's new launch the boat was practically ruined at noon Monday and Ralph Polley, who with Mr. Apperson occupied the boat, was slightly injured.

The launch was just leaving the boat house on the Wisconsin river in this city when the explosion occurred. Mr. Polley received injuries about the face and was hurled into the water by the terrific force. Mr. Apperson escaped unhurt. The exact cause of the accident remains a mystery although several reasonable theories are advanced.

The launch was one of the costliest and finest equipped on the Wisconsin river.

"Denny" Takes Charge As Lannford At Noon To-Day

Dennis Corbett, who last week leased the Hotel Fuller of Chas. Chaffee, took possession of the house at noon today.

"Denny," as Mr. Corbett is popularly known throughout this part of the state, is a first class hotel man and for a number of years past has managed the Vivian Hotel at Antigo. He has a large acquaintance among the traveling fraternity and is well liked. He contemplates several improvements at the Fuller and will endeavor to please his patrons at all times. In conducting the business Mr. Corbett will be ably assisted by Mrs. Corbett.

#### A SAD CASE

Knaggs Children are in a Most Deplorable Plight.

Upon complaint of the Charity League the minor children of Mrs. Knaggs of this city were committed by County Judge Billings to the American Home Finding Association, Wednesday. Later upon the promise of the mother to properly care for the little ones the court postponed the order of commitment for one week.

The members of the Charity League found affairs in the Knaggs home in a most deplorable condition, even worse than when the case was brought before the attention of the authorities last winter, when the woman promised to do better. Without doubt the action of the judge in allowing her the children on probation will be of no result and at the expiration of the week he will find it advisable to send them to the association.

## GATHERING PLACE FOR THE FARMERS

Council Appropriates \$500 For Lot and Building of Barns And Sheds

Rhinelanders is to have a public gathering place for the farmers. At meeting of the council Tuesday evening \$500 was appropriated to purchase Block 12 of the original plat of the city of Rhinelanders upon which to erect suitable barns and sheds for the reception of farmers' teams and wagons. This piece of ground is located across the Northwestern tracks on Rives street back of the Pabst warehouse. In time this property may be used as a city market place where the farmers can bring their produce to the attention of the buyers.

The council also passed a resolution authorizing the board of public works to purchase a force sprayer to be used in destroying the insects that infest the shade trees in this city. Such sprayer is to cost not more than \$200. Mayor Anderle appointed Ira M. Cass as a new member of the school board from the sixth ward. Jas. Baker and Prescott Calkins were placed on the board of review for 1911. Several matters pertaining to street improvements were considered and the meeting extended until long after midnight.

#### IN NEW LOCATION

Joseph Neisse's Leader store is now located in the building on Davenport street at one time occupied by Roepcke's harness shop. The new quarters were opened to patrons yesterday. Mr. Neisse has a large and select stock of dishes, chinaware, novelties and etc., and his prices are reasonable.

#### QUIET IN POLICE COURT

There was nothing stirring in police court this week, only one case appearing on the docket, that of James McKern who was arrested on a "D. D." charge. Justice W. B. LaSelle fined the prisoner \$2.00, and costs which he paid rather than board with Sheriff Crofoot.

#### CUBS MEET DEFEAT

Arbor Vitae Wins Second Game—Score 5 to 7

The Rhinelanders Cubs met their second defeat at the hands of Arbor Vitae in this city Sunday. The score was 5 to 7. The game was interesting and pleased a fair sized crowd of fans.

Steve Gwidt, manager of the Cubs, lays the loss to the fact that his team was badly crippled by the absence of three of the best players. Sherman, in the box for the locals, pitched fine ball, striking out eleven men.

After the game Arbor Vitae issued a challenge to play the Rhinelanders city team.

#### TOMAHAWK LAKE

A pleasant social and birthday party was the feature of the day at our little burg Saturday evening in honor of Mrs. Chas. Flagel, and which turned out to be a great surprise to her.

The social was very ably managed by Mesdames Ireland, Hughton, and Miss Mabel Flagel, who looked after the wants of the invited guests to the satisfaction of all. After indulging in dancing until about midnight, the guests were treated to a bountiful repast to which all did ample justice. The guests from out of town were Mr. and Mrs. Jas. Trumble, Wm. Shannon, A. F. Easton and wife of Rhinelander, Messrs. Anderson, Swartz and Dr. Reed of Hazelhurst Wis.

Sunday afternoon the writer and other guests had another surprise coming, and under the generous and liberal hospitality of Mr. and Mrs. John Hughton, were treated to a splendid launch ride to Little Tomahawk and return.

J. J. McDonald, one of the recently appointed foresters, and his able assistant, Mr. Perry Blair, are located here for the present, looking over the state lands and getting things in shape for reforestation of our public land. Mr. McDonald, we understand has had a great deal of experience in estimating timber and the state has secured a very efficient officer.

Miss Neva Armstrong of Antigo has been engaged by Mrs. Hughton to look after the culinary department at their famous summer resort for the coming season. Among the first arrivals were Mr. Morrill, and Mr. and Mrs. Merrill of Chicago, who hold responsible positions on the railroads there.

Mrs. Lathrop has been very ill for the past week or two and is still not out of danger.

### JULY 4 AT WOODRUFF

Citizens There Arrange For A Monster Celebration

Woodruff, the bustling little Oneida county town north of here, is to have a 4th of July celebration. The citizens there have donated liberally toward the fund and the committee in charge plan to make this the greatest event in the history of the town. Music will be furnished by a band from Winchester. There will be a long program of sports, races and amusements. Anthony Renew will be marshal for the day and J. F. Ames will deliver the oration.

Among the features will be a big parade in which the Eagles will participate and a grand ball at the M. W. A. hall in the evening.

#### MOVE TO TROUT LAKE

F. B. Moody, deputy state forester, who is in supervision of the state forest reserve near Trout Lake, will soon move his family there where a temporary house is ready for their reception. In the fall larger and more substantial quarters will be occupied.

Mr. Moody has rented his home on Grant Street to Dr. I. E. Schlek.

## TAKE STEPS TO PREVENT FIRES

Government To Assist State in Guarding Against Forest Conflagrations

F. B. Moody, deputy state forester, informs the New North that through the efforts of E. M. Griffith, state forester, an agreement is being made with the secretary of agriculture and Chief Forester of the United States Forest service to establish and maintain a cooperative fire protection system covering any or all private or state forest lands within Wisconsin and situated upon the watersheds of navigable streams. For this purpose federal and state patrolmen will be appointed and such other protection measures as may be deemed advisable will be taken.

It is the intention, Mr. Moody says, to get these patrolmen into the field not later than July 1st. They will be under direct supervision of the state board of forestry.

Mr. Moody has in mind several Rhinelander men whom he will suggest for appointment to these positions. The patrolmen so selected will be appointed as temporary laborers in the forest service at a salary not to exceed \$75 per month. They will be employed exclusively in the protection of areas on the watersheds of navigable streams which shall have been approved by the secretary of agriculture. The work will be temporary and will last until Dec. 1, 1911 after which date the length of service may be extended.

Referring to the work now being carried on at the state forest reserve near Trout Lake, Mr. Moody, who is in charge, gave out some interesting information. There has just been planted 193,000 trees of which number 182,000 are three year old white pines, 5000 western yellow pines, 5000 Norway spruce transplants and 1,100 Norway pines. It is the intention of the state to develop this feature of the work extensively. In addition to the tree planting one-half acre of seed beds has been arranged. In this space nearly two million seeds of numerous varieties, including white, western yellow, Norway and Scotch pine, Norway spruce and European larch, have been planted. Fifteen men are employed at this nursery work and very satisfactory results are being accomplished.

The new forest rangers, under Mr. Moody's direction, are busily occupied cutting fire lines, trails and roads through the timber country, burning old slashings and removing ties from abandoned logging railways.

Every precaution in guarding against fires is being taken. Look-out stations are being located at intervals throughout the whole territory patrolled by the rangers. These stations are built on high elevations where a clear view of the surrounding country for miles can be obtained. In case of a fire starting within the line of a certain station the man on duty can, through telephonic communication with headquarters receive prompt assistance. By this system it is almost impossible for a fire to gain much headway. All stations are equipped with telephones, maps, compass and other necessary equipment.

Mr. Moody invites people of Rhinelander to visit the state forest reserve and gain a better knowledge of the methods of forest conservation being conducted there.

## COUNT OF MAIL IS COMPLETED

Rhinelander Post-Office Handled During the Month of May Nearly 170,000 Pieces of Mail—Carriers Deliver 55,827 Pieces on Their Routes.

Few people who have waited the distribution of mail in the post-office during the month of May realized the extra work the clerical force were handling during this time. Instead of the mail being "worked out" without regard to its classification on its arrival each piece was required to be counted, classified and entered on blanks prepared by the department for this purpose. What was involved in this labor may be better understood when the following table is read indicating the number of pieces of mail matter passing through the office during that period, exclusive of official postal matter:

### IN FOREST COUNTY

The Grafters Are Now Getting Their Just Deserts

There are in this county many men who are working hard for wages which are barely sufficient for the decent support of their families. Of course these men are subjected to the limit of taxation. They can not escape it. The little they possess can not be concealed from the eye of the tax gatherer. On the other hand are some men who have grown rich by means dubious and dishonest—men who have filled the bulging pockets of their flabby pants with thousands of dollars of the working man's money, taken from the county treasury without warrant of law. Until recently the latter class have had pretty nearly their own way in this county, and actually the working men have looked up to them for guidance in matters political. Conditions are changing. The honest worker and the man who conducts a legitimate business by honest

means unite in demanding that the thieves and their stealing be stopped. The state has responded to the call for a cleaning up and is in progress. Every honest man prays for thoroughness and fidelity in the investigation going on. Those who cast obstructions in the way, and who declaim the cost, thereby put themselves in the class which has marked for punishment can't make anything else out of Cranden Echo.

#### CORN RAISING CONTEST

In about fifty of the seventy counties of Wisconsin there is this year among school children in the raising of corn contests will be carried on in twenty counties, not confined to ten counties. The seed for contests is supplied by the natural experiment station of the college of agriculture at Madison. County superintendents are mental in originating the contest in bringing them to a conclusion exhibits at the county fair of respective counties.

## HER WEIGHT INCREASED FROM 100 TO 140 POUNDS.

### Wonderful Praise Accorded Peruna the Household Remedy

Mrs. Maria Goertz, Orienta, Okla., writes: "My husband, children and myself have used your medicine, and we always keep them in the house in case of necessity. I was restored to health by this medicine, and Dr. Hartman's invaluable advice and books. People ask about me from different places, and are surprised that I can do all of my housework alone, and that I was cured by the doctor of chronic catarrh. My husband was cured of asthma, my daughter of catarrh and catarrh of the stomach, and my son of catarrh of the throat. When I was sick I weighed 100 pounds; now I weigh 140.

"I have regained my health again, and I cannot thank you enough for your advice. May God give you a long life and bless your work."

### "LENA RIVERS"

It is not generally known, but Mrs. Mary J. Holmes' wrote her book "Lena Rivers," which has made such a popular and successful play, around the scenes which she actually visited, and modeled her characters after people she knew in those localities. Mrs. Holmes' taught school in the South for several years, and while there studied the people and their manners, with the result that she imparted the southern air to her book. At Grand Opera, June 14.

### A DISTINGUISHED VISITOR

First Assistant Postmaster General Granfield of Washington, D. C., was in Rhinelander, Tuesday. He had been in the northern lake region on a fishing trip and was on his way to Minneapolis. His visit bore no significance in connection with the local postoffice although he visited the office while here.

### SALOONS NOT WANTED

Judge Walker Says Crandon Ladies Are Against License.

Judge Walker attended a meeting of the Crandon city council, Tuesday night, at which a large number of women were present with a petition urging the council not to permit the issuing of saloon licenses this year.

At the spring election Crandon, famous as a dry town, was voted wet. Since then there has been much agitation against the admittance of saloons. Many of the citizens, Judge Walker states, are doing everything possible to keep out the liquor traffic. It is not known what attitude the council will take on the matter.

### TWO GAMES WITH OCONTO

Big Conflicts are Arranged for Saturday and Sunday

There promises to be two interesting base ball conflicts in this city next Saturday and Sunday afternoons when Rhinelander will meet Oconto. The Oconto team is rated as an exceptionally strong one and comes here with the express purpose of taking both games. Ray Reed, better known as "Chesty," a former Rhinelander boy, is captain of the visiting nine. He writes his friends here that there will be nothing to it. Manager Deibel asserts that "Chesty" is talking heap too much and that his song will be a different one next Sunday night. Batteries for the game will be Rhinelander, Hutchinson and Deakin and Creamer; Oconto, Saltzer, Daly and Ruby.

### ED. IS LEFT BEHIND

Ed. Dovey is generally regarded by his friends as a rather "swift" boy yet he proved too slow to catch the Northwestern train for Grand Rapids last Saturday morning. It is rumored that Ed. stayed up all night for fear that he might oversleep and not hear the alarm. Then, when within the very shadow of the depot he allowed the cars to pull out and leave him behind. He didn't know that the train had changed time, and consequently was obliged to miss seeing Saturday's ball game. Ed. says he is going to take a week off and study up the railway time table.

### TO LEAVE SOO HOUSE

Noah White Retires From Hotel Life  
On July 1st.

Noah White, who for some years has successfully conducted the Soo House on Thayer Street, intends to retire from the hotel business about July 1st and on that date will reopen the saloon on Rives Street formerly owned by Mose Poquette. It is not yet known who will assume charge of the Soo House.

Noah has made a popular landlord and the patrons of the Soo will be sorry to note his retirement. He will no doubt receive a large trade at his new stand.

## BREAKS EVEN AT GRAND RAPIDS

Rhinelanders Team Loses Satur-  
day's Game 5 to 1 and Wins  
Sunday 8 to 0

Rhinelanders split even in the series at Grand Rapids, Saturday and Sunday, losing the first contest 5 to 1 and "coming back" strong in the second battle by applying the white wash brush to the tune of 8 to 0.

The first game was lost principally on account of the inability to hit Cook. If he was the original "Dr. Cook" he failed to discover the poles of Bell's warriors. The long ride from this city to the Wood county metropolis seemed to put a couple of layers of coal dust over their hitting eyes.

Grand Rapids scored 3 in the first on a walk to Sinner and hits by Talbot, Garlick, Brennan and Evans. Deakin then tightened up and pitched shut out ball, the two runs in the fourth being the result of an error after two men had been retired.

Rhinelanders' one run came in the third. Creamer led off with a single. Blackburn and Deakin were retired in order. Poller walked, pushing "Pepp" to the middle sack. Weckler pushed a single between first and second scoring Creamer and "Spike" was headed off at the plate for the third base. Neither team threatened to score after the fourth.

Sunday's Game

The second game reads different. Bell's sluggers, after a night of rest, bombarded the offerings of Nelson and Foster to all corners of the lot until they had the Grand Rapids outfield singing "After the Ball."

The game was captured at great expense. However, Post receiving a split finger from a foul up, which forced him to retire in the third. Creamer replaced him and showed up well, while Clifford was brought in to the second station and performed like Johnny Evers.

In the third, Rooney reached first on Nelson's error and was sacrificed to second by Poller. Weckler was allowed free transportation to first. Clifford hit to Nelson, forcing Weckler at second. Post stopped one of Cook's shocks with his arm, inhabiting all the cushions. Here Rooney put his own game on the ice by hitting a two sack, scoring Sohr and Clifford, Post being caught at third for the third out.

In the sixth Rooney led off with a wallop over Garlick and by the time "Honus" with Brennan's help, had wheeled the ball back to the infield "Rube" was perched on the three quarter's post wearing a smile like a cut in a watermelon. Jastrum then engineered a tailor made squeeze making the count 3 to 0.

When Rhinelanders went to bat in the seventh Nelson had been blanketed and led to the stable and Foster was on the heaving hill. He was greeted by two singles by Clifford and Weckler but managed to retire the side with no runs.

In the eighth the big guns were turned on the enemy and, when the

smoke had cleared away a big 5 could be seen through the haze, hanging on the score board.

Rooney led off with his third hit, went to second on Creamer's out and took third on a passed ball. Jastrum walked and appropriated second. Blackburn singled, scoring Rooney. Jastrum being caught at plate, Sohr reached first on Nelson's second error and Poller walked, filling the sacks. Weckler ripped off a single to left, scoring Blackburn and Sohr. Clifford uncorked one to right, chasing Poller and Weckler over the platter and Hutchinson hitting for Deakin ended the agony, grounding out to Evans.

Grand Rapids got men on second and third with one done in the ninth, but Rooney by clever pitching retired the side on two pop flies to the infield, ending a decisive victory for Rhinelanders. Umpire Bandelin officiated at both games.

## FLASHES FROM THE HEADLIGHT

### Bits of News Pertaining To The Soo and Northwestern Railroads

About the middle of this month the Northwestern railway will put on a new Sunday train between Wakefield and Fosterville on the Ashland division. According to announcement the train will leave Wakefield at about seven o'clock in the morning, run to Hurley then Mercer and Fosterville. Returning it will arrive at Wakefield early in the evening. The service will be largely patronized by fishermen during the summer.

R. J. Bartlett, a Soo line freight conductor, will soon move his family to Minneapolis to reside. Mr. Bartlett has made his headquarters in Rhinelander for a number of years and he and his family have many friends who will regret their departure.

E. J. Slossen and Pat Gleason, two local Soo line employees, spent Sunday viewing the sights at Sault Ste. Marie.

A press dispatch from Neenah states that General Manager R. G. Huntington of the Soo line, in an interview, said that the much talked-of cutoff between Greenwood and Chippewa Falls will not be made. The road from Spencer to Stevens Point, a distance of forty miles, will be double tracked so as to care for increased traffic.

E. E. Melton has moved his family to Tule River Falls, Minn., out of which city he will be employed as engineer on the Soo line.

The Chicago & Northwestern railway company's magnificent and massive new passenger terminal at Chicago opened Saturday to the public. All trains will arrive and depart from the new station which is located on Madison Street between Canal and Clinton Streets.

Thos. Redfield, Northwestern yard master in this city, accompanied by Mrs. Redfield, went to Ingram, Saturday to visit relatives. Tom incidentally carried his fishing tackle with the hopes of landing a mess of sturgeon.

A number of the new Soo line passenger locomotives passed through the city this week on their way from the Schenectady shops to the west. The engines are monsters and attracted much attention here.

Trains are now running over the new Soo line bridge which crosses the St. Croix river connecting Wisconsin and Minnesota. The structure is one of the highest railroad bridges in the United States, being 180 feet above the water.

H. L. Nisely, day round house foreman, and H. E. Schellenger, night round house foreman for the Soo line here, were at Minneapolis this week.

**YOUR NEIGHBOR'S EXPERIENCE**  
How you may profit by it: Take Foley Kidney Pills. Mrs. E. G. Whiting, 360 Willow St., Akron, O., says: "For some time I had a very serious case of kidney trouble and I suffered with backaches and dizzy headaches. I had specks floating before my eyes and I felt all tired out and miserable. I saw Foley Kidney Pills advertised and got a bottle and took them according to directions and results showed almost at once. The pain and dizzy headaches left me, my eye-sight became clear and to-day I can say I am a well woman, thanks to Foley Kidney Pills."

### ONLY TOO TRUE

While the home town merchants are asking for home trade and the news papers are admonished to "boost" home patronage, one merchant in the city of Antigo sent an order for 10,000 shipping tags to an outside printer. And they cost him nearly as much as if he got them in Antigo. A little reciprocity at home wouldn't be bad.—Antigo News Item.

### ISSIE IS IMPROVING

Issie Cohen, who is a patient at St. Mary's hospital, had so far improved Wednesday that he was able to walk up town and spend a few hours looking after business matters. He contemplates a trip to Chicago when his condition will permit.

## BAKING POWDER

The wonder of baking powders—Calumet. Wonderful in its raising powers—its uniformity, its never failing results, its purity.

Wonderful in its economy. It costs less than the high-price trust brands, but it is worth as much. It costs a trifle more than the cheap and big 'can kinds—it is worth more. But proves its real economy in the baking.

Use CALUMET—the Modern Baking Powder.

# NEW VOLUMES AT PUBLIC LIBRARY

## Carleton's Much Discussed Book "One Way Out is Now On the Shelves

Among the new books just received at the library is "One Way Out" by Wm. Carleton. A few brief chapters of the book were published recently in the Saturday Evening Post and provoked much discussion. It is the story of a middle-class New Englander who emigrates to the Little Italy of a seaboard city, and works his way up as the immigrants do.

Crowded out of clerical work by modern methods and machinery Carleton finds himself at thirty-eight with no profession or trade and too old to obtain a position at the bottom. He emigrates. Selling all but necessities, he and his family move into a tenement and reduce living to the essentials. Carleton takes a shore and pick among the Italians at nine dollars a week. Unhampered by social caste and high standard of living, the courageous wife succeeds in saving on nine dollars a week more than on thirty dollars a week in the trim suburban home. Their life is rich in opportunity and happier than ever before, free of care, and inspired by the pioneer spirit of their forefathers. After five years of such life Carleton emerges an independent contractor with considerable capital.

The book is illuminating in its bearing on the cost of living. Carleton's experience leads him to the conclusion that it is more education in right living rather than higher wages that is needed to eliminate the squalor of the tenements. The story is simply and forcibly told, and will be widely read for its deep human interest and the spirit of pioneer adventure that pervades it.

It will be an inspiration to the salaried man living up to the limit of his salary.

Two more travel books have been added to the library.

The New North by A. D. Cameron is an enthusiastic record of a journey down the Mackenzie river from Athabaska Landing in Alberta, Canada to the Arctic Ocean and back by way of the Peace river. It is a narrative of dangerous passages on the river and abounds in descriptions of people, of northland scenes, interspersed here and there with anecdotes. Much is said about Arctic animals and Arctic foods, and new light is thrown on the character of the inhabitants of the far north, the Esquimo. There are excellent illustrations from photographs, and it is an interesting and informing book.

A wanderer in Paris by E. V. Lucas is an account of holiday saunterings in the streets, gardens, shrines, show-places and artistic haunts of Paris. More general and popular than either Cain's or Hare's Walks in Paris.

Fiction:—  
Darr—Sheila Vedder.  
Faversham—The Squaw Man.  
Kioth—The Post Girl.  
Farnol—The Broad Highway.  
Doyle—Return of Sherlock Holmes.  
Juveniles:—  
Munroe—Campmates.  
Riis—Hero Tales of the Far North.  
McDonald—Gerda in Sweden.

### A FUNNY, SWEDISH SHOW

"Tilly Olson" at the opera house next Sunday night.

Don't fail to see the funny "Tilly Olson" show at the opera house soon. Good singing and dancing specialties are interspersed throughout this funny play. Get your seats early as "Tilly" always packs the houses.

Tilly Olson at the Grand last night pleased, it being an exceptionally clever show, as good a "Swedish Show" as ever was seen in Perry. If not the best of that class.—Daily Chief, Perry, Iowa.

### SAILOR BOY ATTRACTION

Sailor Best and his wonderful views of the Orient proved a big attraction at the Bijou theater, Monday and Tuesday evenings. Mr. Best while in the navy visited the Far East and his talk on the people and the countries was very entertaining. His descriptive slides were among the best ever seen in this city.

### CLASS DAY EXERCISES

As the New North goes to press the Senior Class Day exercises are being held at the Grand Opera House. An extended mention will appear in the next issue.

### "TILLY OLSON" COMING

If you enjoy a hearty laugh, good singing and dancing and a funny Swedish play see Carl M. Dalton's Big Company presenting "Tilly Olson," at the opera house next Sunday evening. Aye tank she bane gude fallar.
